

February 2018

To whom this may concern,

After getting in trouble with "predatory future receivables" lenders we were at our wits end! It seemed simple in years past to procure funds with a loan with a daily payment and use the funds where needed, thinking we could make up the high interest rate with increased sales and production. That wasn't the case and we found ourselves with 5 loans and daily payments we could no longer make. If you are thinking about using one of the lenders who only want 4 months of bank statements to qualify your loan/advance please run for the hills. Do not get involved with these companies.

Not knowing where to turn with an unreasonable daily payment and a total debt of 240K we called Corporate Turnaround. It was the best call we could have made. CT immediately halted the daily payments and immediately started working hard to settle the debt with the 5 funding companies we got suckered into. Yes suckered! It was our fault to keep doing business with these folks and if there is one thing I can say to anyone pondering the possibility of working with one of these companies please don't do it!! Back to CT. Scott took all of the upfront information. He was honest with us too. He explained that our situation was difficult but that if we followed the program we could get out from under the financial rock we put ourselves under.

After taking all the information Scott set us up with our account representative Adam. Adam has been a breath of fresh air. He has explained the entire process to us and his support and positive attitude throughout this whole process has been very calming to us! Adam has always done exactly what he has told us he was going to do. Never in the last year have we had to question his follow through. Never! That's rare! His expertise as to what was going to happen and what we needed to happen was spot on. We can sleep again at night knowing that our business will eventually come out of this financial mess. Without Adam's knowledge and understanding of our situation and the cash advance industry we wouldn't have made it through. Granted we are still only half way there but all accounts have been settled with payment plans in force. Thank you Adam!!

If any of you reading this are in trouble with these predatory lenders please take my advice and call Corporate Turnaround. This company really does care about getting business owners out of the financial holes we have unfortunately dug for ourselves. Don't hire any other consolidation company that wants thousands of dollars up front (that we all don't have) just in order to get your account rolling. CT will work with you and find a budgetary number that will work for you and you will see progress quick!

Thanks to all at CT and a special thanks to Adam who has been with us every step of the way, never turned his back on us and has given us the hope and proof through his hard work at settlements that we will be ok in the end. You're a life saver Adam! Thank you!

Vice President / General Manager

Your company's results may vary. Every restructuring has a unique combination of issues and factors, including the length of participation in the program. All of these variables affect individual outcomes. There are no "typical" results. Debts may increase until a resolution is reached.
