

## COMEBACK STORY OF THE MONTH

December 2019

My small family business had been successful for over forty years, when things took a turn for the worst. We found ourselves drowning in debt with four daily cash advances. When I searched for help, we were thankfully guided to Corporate Turnaround.

I was assigned to Adam [REDACTED] and from the moment I spoke with him, he reassured me we were making the right move. I can't say enough positive things about our experience with Adam and the CT team. They were able to work with the highs and lows of our business and negotiated with our creditors to work out payment plans. Adam was always responsive to emails and calls and we were set up right away with an online portal to see the steps and how the entire process works and where every penny we paid in actually went.

I will recommend Corporate Turnaround to anyone feeling hopeless and drowning in debt, they really go above and beyond for their clients.

Have patience and trust the process!

Thank you,
