RE: Corporate Turnaround

To whom it may concern:

It is with great respect, admiration and appreciation that I am writing this letter to thank Corporate Turnaround and Adam [REDACTED] our representative for the work that they have done on our behalf over the last year.

We first took over [REDACTED] when it was in a financial position that was less than stellar. There were past due balances, some angry vendors and very questionable financials indicating that the future may not be so bright for the course. It was obvious some financial restructuring needed to be done and so we went down the path that many struggling businesses go down. Do we go into bankruptcy? Do we shut down the business? What do we do? After careful consideration and research we came across Corporate Turnaround and started to learn more about how they may be able to help. For us it was an obvious solution, one that was not going to cost us \$100K in attorney fees for bankruptcy all the while solving our problems which were to cut down our debt and structure payment solutions to allow the business to go on.

Since day one of our work together Corporate Turnaround has done what they said they were going to do. They have continued to keep us informed and best of all they were able to deal directly with the vendors which has allowed us to focus on turning the business around.

It is with great gratitude that on behalf of our company we would like to thank Adam [REDACTED] for all of his work, support and assistance and Corporate Turnaround as being a solution for us.

I would highly recommend Corporate Turnarounds services.

Kind regards,

Your company's results may vary. Every restructuring has a unique combination of issues and factors, including the length of participation in the program. All of these variables affect individual outcomes. There are no "typical" results. Consult with a licensed attorney regarding the applicability of bankruptcy.
